

**PERFUMING OR FLAVORING MICROCAPSULES
COMPRISING A FIREPROOFING AGENT**

Abstract

5

Perfuming or flavoring microcapsules that include a fireproofing agent in addition to a perfuming or flavoring ingredient and a carrier material, so that the microcapsules can reduce the occurrence or an explosion of reduced violence when suspended in hot air during their preparation. Also, methods of making these microcapsules and their use in

10

perfumed, food, beverage or pharmaceutical products.
